Materials – Please review to ready for meeting

00 Agenda

01 Well Classes and Conservation Requirements

AGENDA

3:00

Welcome, Chair Rue Furch

Review Agenda, Gina Bartlett, CBI Mediator

Request for Policy Working Group members to be on video

Visitors – off video

3:10

Step 1: Defining Well Classes

Goal: Agree on Well Classes for our working proposal as we move forward

Ground Rule: Use “low water use parcel” for today; PWG can circle back to whether to use 2 AFY or 0.5 AFY after TWG or staff develop pros and cons

3:30

Step 2: Confirm Ordinance Conservation Requirements for Well Permits

Goal: Agree on list of conservation requirements, including water use efficiency and monitoring, that could be used for permits.

Notes:

Ordinance requirements could be used for all permits (Ministerial or Discretionary)

Discretionary permits may have additional “conditions,” (to be discussed at future meeting).

Staff will also explore quantification and other potential measures with water conservation requirements with water conservation experts.

The PWG can review again when this information is ready.

3:50

Stage 3: Match Well Class to Ordinance Conservation Requirements

Goal: Identify agreements and flag areas that might need more work.

4:25

Wrap up and Next Steps - Gina

Close – Chair Mike Martini
