

# Vegetation Services Contracts Participating Fire Districts Fiscal Year 2022-23

For the budget year of 22/23, Sonoma County Fire Prevention has worked with partnering fire agencies to perform property inspections for Chapter 13 A of the County Fire Code. Fire Prevention Division also supports the local fire districts in community chipping days scheduled in combination with the County Chipper Program. Fire Prevention Division also will support community wildfire projects by CalFire, the local fire district and other landowners to support wildfire mitigation through the California Vegetation Treatment Program (CalVTP) managed by California Division of Forestry. Fire districts can request funding for a CalVTP, community wildfire outreach and education or fuel management. Contracts are renewed every fiscal year based on funding and will also be reduced or increased based on participants projects consolidations.

Participating Agency	Final Parcel Count 22/23	TOT Funding for 22/23	Chipping	Projects	Inspections
Cloverdale FPD	430	\$22,000.00	No	\$0.00	Yes
