DEM25-0382	Pre-Issue/Payment Due	Demolition Permit	10/18/2025		21676 Monte Vista Ter Monte Rio [MRO]	Demolish 96 SF Shed and connected electrical The property I bought 3 years ago, my main home at 21676 Monte Vista Terrace, Monte Rio, has an outbuilding that is old, moldy, unusable, and must be removed. It is a pre-fab shed 12 feet x 8 feet. There is one outdoor electric outlet that is built at the shed. I plan to disassemble the shed piece by piece, and hire a junk hauler to dispose of boards. Before demolition, i will remove the outdoor outlet and close wiring from its origin, the other side of the deck. The shed is an eyesore, and on the narrow street makes the street feel smaller. It will greatly improve visibility to walkers or drivers on the street. This is my first permit with Sonoma County, but I did build a home in Klamath County and all Building records for that home are in my name. I have the tools and knowledge to complete this project on my own.	095-082-004	\$252.08	\$0.00	10/01/2025 - 10/31/2025

WEL25-0386	Resubmittal Requested	Well Permit	10/9/2025		101 Wilson St Petaluma [PE]	Based on preliminary project plans and information provided, it is our understanding that the project will consist of subdividing the property and constructing four single-family residences. We anticipate the proposed residences will consist of two-story, wood-frame structures with either joist-supported raised wood floors or concrete slab-on-grade floors, and concrete slab-on-grade floors in the garages. PJC intends to drill five to six exploratory geotechnical boreholes. Due to the property being located in a very high liquefaction zone, one of the boreholes will be drilled to a depth of 50 feet. The subsurface exploration will be done with track mounted drilling equipment to aid in evaluation of the subsurface soil, bedrock and groundwater conditions underlying the building site. All of the boreholes will be drilled by Clear Heart Drilling, Inc. There are no known wells on the property.	007-081-014	\$628.48	\$0.00	10/01/2025 - 10/31/2025

WEL25-0401	Awaiting Applicant Response	Well Permit	10/21/2025		5321 Old Redwood Hwy Windsor [WIN]	destroy forty-one (41) monitoring wells by overdrilling and two (2) monitoring wells (MW-5 and MW-40) by pressure grouting. A licensed well driller will destroy the forty-one (41) monitoring wells by overdrilling each well to their total depth in accordance with Sonoma County Department of Health Services (SCDHS) well standards and guidelines. The licensed well driller will destroy two (2) monitoring wells MW-5 and MW-40 by pressure grouting because overhead power lines are located above each of the wells, presenting a safety hazard for drilling personnel working around the drill rig. Drill cuttings and wastewater generated during the well destruction activities will be contained in DOT-approved 55-gallon steel drums. The drums will be appropriately labeled and stored at the Site pending proper disposal. A licensed contractor will transport the soil and wastewater to an appropriate facility for disposal.	039-025-029	\$0.00	\$0.00	10/01/2025 - 10/31/2025
