BLD25-6937	Awaiting Applicant Response	Building Permit With Plan Check	11/12/2025		450 Bloomfield Rd Twin Hills [TWI]	We are proposing to add approximately to 280 square feet of office space to an existing guest cottage (286 square feet) on our 450 Bloomfield Rd property. Our main home is 1591 square feet and there is a detached garage workshop on the property of 400 square feet. The cottage has a full bath and is used for visiting guests. It currently has a bed and a desk in the studio space. This expansion will allow us and our guests to use the space more comfortably . This guest cottage was existing at the time of our property purchase in 1989. The plans for this project design was fully permitted for a remodel in 1990 but due to family changes (we had a baby) we decided to not proceed with the project. I would like to proceed with this remodel and have been trying to assess the likely approval of this project before I pay for a full digital updating of the proposed plans.  I have had an updated plot plan completed so that you can see that our proposed remodel leaves us at 6.98% of building lot coverage. I am attempting to assess the feasibility of this project under current county rules before I proceed with significant other costs of redoing the remodel plan.	063-213-001	\$0.00	\$70475.00	11/01/2025 - 11/30/2025
